

CV: ISSAAK PARCHARIDIS

Personal information

First name / Surname

ISSAAK PARCHARIDIS

Address(es)

70, El. Venizelou, GR-176 71, Athens, Greece

Telephone(s)

(+30) 210 9549345

Mobile: (+30) 69 978890705

Fax(es)

(+30) 210 9514759

E-mail

parchar@hua.gr

Nationality

Greek

Occupation-CARRIER

20018-Today Professor at Harokopio University, of Athens, Dep. of Geography
8/2019 Visiting professor at DLR (Germany) in the frame of Erasmus staff mobility
2018 Visiting professor at Sapienza University/ Engineering Dep. in the frame of Erasmus staff mobility
2-7/2017 Visiting Professor at ESA/ ESRIN
5/2016 Invited Professor at ENS/Dep. of Geosciences
2013-2017 Associate Professor at Harokopio University, of Athens, Dep. of Geography
2008-2012 Assistant Professor at Harokopio University of Athens, Dep. of Geography
2004-2007 Lecturer at Harokopio University of Athens, Dep. of Geography
2000-2003 Associate Researcher at National University of Athens
2000-2002 Scientific advisor in General Secretariat of Civil Protection of Greece
1998-2001 Visiting lecturer at MAICH (Crete)
1996-1999 Special scientist at Earthquake Planning and Protection Organization of Greece
1987-1992 Learning support teacher for high school students (SOS Village, Greece, Vari)

Membership

2022 member of the new "Permanent Scientific Committee for the Monitoring of the Greek Volcanic Arc"
2020 Member of "Permanent Scientific Committee for the Monitoring of the Greek Volcanic Arc"
2019 National expert for validation of Science for Disaster Risk Management 2020: Acting today, protecting tomorrow» published by Disaster Risk Management Knowledge Centre (DRMKC) of JRC (Joint Research Centre)
2001-2003 Member of the United Nations ACTION TEAM N. 7 (COMMITTEE ON THE PEACEFUL USES OF OUTER SPACE) aiming the development of a global management system for disasters management, based on space techniques.
2001-2004 Member of the administrative board of the Earthquake Planning and Protection Organization of Greece

Education and training

Date September 1994

Title of qualification awarded

Doctor of Science

Principal subjects/occupational skills covered

Tectonic Analysis of central and northern Greece using Remote Sensing data

Name and type of organisation providing education and training

Agricultural University of Athens, Lab. of Geology

Date 1983

Title of qualification awarded

BSc in Geology

Principal subjects/occupational skills covered	Applied Geology																																		
Name and type of organisation providing education and training	University of Parma (ITALY), Faculty of Geological Sciences																																		
Scholarships	Scholarship from the CNR (Centro di Ricerca Nazionale, Italy) for short research visiting at CNR's institution (2010).																																		
Seminars for training	<p>Seminar on "Image information Mining", (Europen Space Agency/ESRIN 2002, Frascati, Italy).</p> <p>Course on SAR Interferometry: Principles, Data Processing and Applications. GAMMA Remote Sensing AG, Gumiigen, Switzerland, from 30/04/07 to 02/05/07.</p> <p>European self training workshop on the international "Space and environmental disasters" charter, Paris 18-19/3/2002.</p> <p>Applications in Geosciences of ILWIS s/w (International Institute for Aerospace Surveys and Earth Science 1995, Enschede – Holland):</p> <p>Training course "From Optical to Radar", ESA/ESRIN, May 1994.</p> <p>Training course "Applications of Radar data" ESA/ESRIN, October 1994.</p>																																		
Teaching																																			
Undergraduate courses	<p>Remote Sensing-Photointerpretation (Harokopio University of Athens)</p> <p>Advances in Remote Sensing (Harokopio University of Athens)</p>																																		
Postgraduate courses	<p>Advances in Remote Sensing at postgraduate course (Harokopio University of Athens)</p> <p>Advanced technologies in natural risks management (Harokopio University of Athens)</p> <p>Emergency planning (Harokopio University of Athens)</p> <p>Space technology in emergency management (National Centre for Public Administration and Local Government)</p>																																		
Seminars	<p>Lecturer at Seminar TRANS-ATLANTICTRAINING (ESA-NASA-SARMAP-UNIVERSITYPECS), Hungary (Pecs, 2017)</p> <p>Maich lecturing in the frame of the seminar "Geoinformation Technologies Application for Decision in Coastal habitat Management" (Chania, Crete island, 2006)</p> <p>Technical University of Crete</p> <p>National school of Public Administration, Seminar to educate civil protection officers (2002)</p> <p>Presentation-lecture at Sapienza University (Rome , Italy, 2018)</p> <p>Presentation-lecture at DLR (Munich, Germany, 2019)</p>

(German Aerospace Center (DLR), project GEO0904, 2010-2011).</p> <p>Earth surface displacement and related risks based on space SAR interferometry (ESA's 2nd call for ideas for Greek institutions, integrated in TERRAFIRMA_X GMES project,, 2009-2011).</p> <p>Ground Deformation Studies in the Central Ionian Islands (Greece) using Time Series Interferometry. European Space Agency (ESA), CAT-1 6831, 2010-2012.</p> <p>Ground deformation monitoring in (i) Suez canal area (ii) Alexandria city and related risks by using space techniques, optical data and SAR interferometry. (Alexandrina Biblioteca Foundation, 2009-2011)</p>

Ground Deformation Monitoring in the Greater Cairo Metropolitan Region (Egypt) by SAR interferometry (NATO Collaborative Linkage Grant, 2009-2010).

Ground deformation mapping in Ilia Prefecture using Persistent Scatterers Interferometry technique from space radar data. (Latsis I. Public Foundation, 2008-9).

Using Remote Sensing and GIS techniques for predicting the most hazardous areas for landslides in South Sinai. (Ministry of Higher Education of Egypt, 2007-08).

Continuous risk assessment of structures and plants in areas of ground deformation susceptibility by space-based SAR/ASAR Interferometry. (ESA 's 1st call for ideas for Greek institutions, integrated in TERRAFIRMA GMES project, 2007-2009).

Study of land cover changes particularly in urban areas for Imvros and Tenedos Islands from 1960 until 2005. (Hellenic Ministry of Foreign Affairs and Hellenic Aid, 2007-2008).

Ground deformation monitoring in areas of high volcanic and seismic risk by conventional and Persistent Scatterers Interferometry. (European Space Agency (ESA), AO for Greece, AO.GR.3333, 2006-08).

Development of InSAR methodology for detection of linear and non linear ground deformation. (General Secretariat of Research and Technology of Greece, ENTER 2006, 2006).

Crustal deformation and volcanic hazard assessment along the Hellenic Volcanic Arc (HVA), using Differential GPS measurements & SAR Interferometry. (European Space Agency (ESA), AO for Greece, AO.GR.1497, 2003-05).

Application of Differential Interferometry to mapping neotectonic movements due to human induced land subsidence. (European Space Agency (ESA), AO for Greece, AO.GR.1484, 2003-05).

Management of seismic risk in urban and non-urban regions of Corinth Prefecture-Periandros. (Corinthos Prefecture, 2003-05).

"Seismopolis" A national project which aims to exploit technological means to inform and create awareness to the general public on issues relative to the correct behavior prior, during and immediately after an earthquake takes place. (General Secretariat of Research and Technology of Greece, 2003-06).

Joined application of space and ground techniques detecting seismic precursors (Bilateral project Greece-Italy, General Secretariat of Research and Technology of Greece, 2003-2004).

Detecting seismic precursors in the broader area Kefallonia (Earthquake Planning and Protection Organization of Greece, 2001-2002)

Development of an integrated system for operational response based on a GIS (Earthquake Planning and Protection Organization of Greece, 2001-2002)

Geo-spatial warning systems: Nisyros volcano (Greece), An emergency case study. (E.U.Information SocietiesTechnology project, 2000-02)

Space techniques and GIS for monitoring seismic risk in active tectonic areas. (STRIM EURO-OPA, Council of Europe, 2009)

Land use mapping in Crete island using Gis and remote Sensing (INTERREG, 2003-2005)

Multi-parametric study of the broader area of Atalanti fault system (Earthquake Planning and Protection Organization of Greece, 2001-2002)

Demonstrating the utility of SAR differential interferometry for the assessment of earthquake risk. (E.U., Framework IV, Environment and Climate, Theme 3: Space techniques Applied to Environmental Monitoring, Area 3.3: C.E.O. 1998-99).

Novel methodologies for the assessment of risk of ground displacement. Bilateral project Greece-China, (GSRT, 2012-2015)

A multidisciplinary project for urban and emergency planning in seismic regions. (E.U and E.P.P.O., 1996-98).

Spaceborne SAR Interferometry as a noninvasive tool to assess the vulnerability over cultural heritage sites.(2019-2022) Bilateral project, Greece-China, GSRT (principal Investigator).

Space for Shore Phase A & B, ESA/ITT, EOEP-5, (2019-2021)

"Telemachus" Innovative Operational Seismic Risk Management System in the Region of Ionian Islands, (2019-2021) PEP Ionion Nisson, (Greece-EU, National Strategic Reference Framework NSRF)

"Laertis", (2019-2021) PEP Ionion Nisson, (Greece-EU, National Strategic Reference Framework NSRF)

Spatio-temporal assessment of land deformation, as a factor contributing to relative sea level rise, in coastal urban and natural protected areas using space-based Earth observation data (2019-2020) Partnership Agreement 2014-2020, Human Resource Development Training & Lifelong Learning, 2018-2020 Hellenic Republic-E.U
